

Digital Confidence Workshop for 50+ on June 9 & 10

NEW Solutions will be hosting another Digital Confidence Workshop on June 9 & 10. This is a free, two-day virtual workshop focusing on digital computer skills and is open to adults 50+ throughout the country! This will be a repeat of our fantastic event back on April 7 & 8.

We will be highlighting the job opportunities that NEW Solutions has for professionals age 55+, as well as important computer skills that can help you get and retain employment. Eager to learn more about how to improve your resume? Guest speaker Teresa Falagradny from Denver Workforce Services will be devoting time to effective resume writing and where to get started! All computer sessions will be conducted by trained computer experts for Computer CORE.

When: Thursday & Friday, June 9 & 10 (Noon to 4:00 p.m. Eastern time each day)

What: Free, virtual workshop to introduce job seekers to NEW Solutions jobs, resume writing and to receive training on key computer skills such as email, Outlook, shared files, Excel. This event is targeted towards job seekers age 50+. Beginner or intermediate levels welcome.

Who is Hosting this Event:

NEW Solutions (previously NOWCC). We are a national non-profit that connects job seekers - age 55+ - to temporary positions at federal agencies. Click here to learn more about NEW Solutions and our job opportunities: <https://newsolutions.org/> or watch this short video to learn more about what inspires us to find work for experienced workers! This event is being conducted with generous funding through the AARP Foundation.
